Use ProAlga™ as a seed treatment starter in the row on the seed, or as a foliar feed.

PROALGA™ CAN DO IT ALL!

HIGHER YIELDS THROUGH PROPER NUTRITION

Better Root Structure & Stronger Resistance to Stress

Two of the primary benefits of ProAlga™ are to build plants' roots and improve stress tolerance. Applied as directed, it can significantly increase stress tolerance and survival potential by supplying beneficial constituents plants can't make for themselves when under intense or seasonal stress.

THE INGREDIENTS IN PROALGA™ HAVE SHOWN BY INDEPENDENT RESEARCH TO IMPROVE:

- Plant health & physiological fitness —
- Photosynthesis —
- Chlorophyll content —
- Brix levels —
- Plant antioxidant levels —
- Cell wall strength —
- Stress tolerance —
- Resistance to diseases —
- Drought tolerance —
- Root mass and length —

Excellent Starter
Increases Germination
Non-burning
Immediate Availability
