Higher Yields Through Proper Nutrition

PRO-12™ has been formulated to address the nutritional issues overlooked by common NPK programs. The difference between supplying a crop with 3 nutrients (N, P, K) versus a program that supplies 70+ nutrients is night and day!

PRO-12™ not only provides a broad array of nutrients, but it also delivers these in a 100% available form. Availability is key. Nutrients must be applied to a crop in an available form or they are of no value to the crop. Get what you pay for with PRO-12™

This powerful solution has also been formulated to ensure the host of ingredients stay balanced and in-solution with no fall-out so your crops get the very best nutrients possible at all times!

Give Your Crop the Ability To Grow to their Full Potential with

PRO-12™

PRO-12™

- Higher Protein Levels
- Larger, Stronger Root Development
- Reduced Crop Stress
- Improved Plant Photosynthesis
- Higher Brix Levels
- Greater Fruitation
